

YEAR 11 LEAVERS' NEWSLETTER

Head of Year 11 - Mr Deakin

The last seven weeks have been the most surreal experience for us all. So many of our 'normal' ways of life have changed in such a short space of time. By now you would have been well underway with your GCSE's, managing the mental and physical demands of back to back exams over the weeks ahead. I am really sad that you didn't get the opportunity to prove what you were capable of! You were all ready and raring to go and I know you would have smashed it! You should all be so proud of how you have dealt with this challenging situation and the way you have adapted to a very different reality

from the one that you have spent the last five years preparing for. You will look back on this time for years to come as a character building moment that will no doubt make you even more resilient in the face of future challenges.

The last four years have literally flown by and I wouldn't change a single moment of it! I can honestly say that being your head of year has been by far the most rewarding aspect of my job at Castle Rushen. Watching you develop and mature into confident well rounded individuals has been an absolute privilege. You have all had such diverse journeys through your time at school. The friendships and partnerships you have forged, along with the skills and qualities you have developed will be the biggest source of lasting memories of your time at CRHS. You have provided me with so many fantastic memories and personal achievements, that a small message to you now will never be sufficient to demonstrate just how proud I am of you all.

I really miss our daily interactions and yes, even our assemblies.....even if it was just an opportunity for me to give you the weeks, hours, days and seconds countdown to your exams! The nerves I got delivering assemblies in Year 8 were the same nerves I felt in those final ones of Year 11. Each assembly was an opportunity for us to come together as a year group and reflect on the goals and ambitions we all had for ourselves and each other. We celebrated all of our successes together and learnt from our many mistakes, all the while recognising that these mistakes shaped our values and strengthened our character. I look back with great pride at the progress you have all made and the immeasurable impact that you have all had on so many aspects of school life at CRHS.

I wish you all the best for the future. You all deserve the success you have worked so hard for! So, whether you are back in sixth form, at college or out in the world of work, be the very best you can be and always know that we at CRHS will be biggest champions.

Looking forward to seeing you all at prom. Mr Deakin

HEADTEACHER - MR WINSTANLEY

As you will know, the last day for Year 11 pupils is traditionally marked with a leaving assembly when I speak to you all about your time here at Castle Rushen High School and regale the audience with some hilarious jokes that were top of the list at the Edinburgh Fringe festival the year you started with us in Year 7.

Unfortunately this year is just a little bit different. Instead of an assembly, Mr. Deakin has put together this Newsletter so we can say a muted but still heartfelt farewell to those of you not returning to study with us in Year 12.

I had a quick look at historic events that occurred during the year you joined us and the first thing to hit my focus was Donald Trump announcing his intention to stand for President of the USA. What a great idea that was! Jeremy Clarkson made the news and lost his BBC contract after he attacked his Top Gear producer over a steak sandwich. I can't imagine what he would have done if he had had to contend with the panini shortage in the canteen here earlier this year. One more story showed you are never too old to learn new skills when four elderly men admitted to drilling a hole in the wall of the Hatton Garden Safe Deposit Company in London and stealing approximately £200 million worth of jewels. Not a great career move, however, as they were all caught and jailed.

Music wise the year was dominated by "Uptown Funk" and the ever present Ed Sheeran. At this point I tend to burst into song so you can at least be thankful to the Corona Virus for that small mercy.

The virus has, of course, brought your school year to an abrupt halt. We are sorry not to be able to give you the send-off we would like and to individually wish you well with a pat on the shoulder but we are nonetheless proud of the effort you have put into your school life and the work you have achieved along the way. I have been able to track the progress made by the students assigned to myself to monitor and if you have all knuckled down like they did, you can be happy with what you have achieved. This year's exam situation is a completely new scenario for all of us but please understand that myself and the teaching staff continue to strive for the best results for all of you. It is not easy to adapt to such a huge change in lifestyle so quickly and we are proud of the way you have handled the situation. That in itself is a huge learning experience.

Just before I go, those top jokes of 2015 were:

I just deleted all the German names off my phone. It's Hans free.

Surely every car is a people carrier?

and

What's the difference between a 'hippo' and a 'Zippo'? One is really heavy, the other is a little lighter.

Best wishes to you all.

Keep safe, keep positive and hope to see you again in September.

Mr Winstanley

ASSISTANT HEADTEACHER FOR KS4 MR FALLON

Well, I wasn't expecting that, as the lyrics from Jamie Lawson's hit go (I am trendier than you think), but I was expecting great things from this year and am delighted that you have delivered on all aspects, not just on the academic front, where I know your effort and determination would have been rewarded with the success you deserve, but also on the social, drama, sporting and music fronts and also in your support of younger pupils.

However, what has impressed me so much about your year is the friendship, care, support, empathy and 'banter' that you have shown to each other, and to me, throughout the challenge of Year 11. It has been a joy and a privilege to witness you care for and support each other and value friendships that will last a lifetime.

May I also thank Mr Deakin on being such a brilliant and supportive Head of Year. He really made my small part in your Year 11 journey, an easy one. I hope you can take the time to reflect upon your progress and achievements this year.

You have given so much to uphold the community and the values we hold so dear at Castle Rushen High school. I thank you all.

Cheers and all the best
Mr Fallon

LEAVER'S SPEECH - HARRISON & EMILY

2020 has proven to be a challenge for us all. We went into this year expecting to be completing our exams, celebrating with prom and moving ahead with our lives. As much as we'd like to keep this speech light-hearted, it's difficult at this time. The daunting weight of exams has always been on us since year 7, and for that all to disappear overnight can be both a relief and a nightmare. A lot of us have worked so hard these past 2 years. To some people, it may look like our years at Castle Rushen have been pointless.

Both Harrison and I believe we can speak on behalf of the year to say that it certainly has not been wasted.

It's been a rough journey for all of us. We're sure you can all agree that there have been many ups and downs for each and every individual. However, we personally could not be happier with the rapport that has developed as each and every one of us has gotten older. We have a year full of students who are both kind and interesting people. This, we hasten to add, shows how far we have come as people from when Mr Deakin became our head of year in year 8. Due to this, the possibility of never seeing certain people ever again is upsetting, however we can take this opportunity to look back upon all the great memories we have created whilst at this school.

Harrison: I hope that the relationships we've developed throughout our time at school will continue long into the future as throughout the years, the friendships I've lost and made have made me feel happier about myself. I love all my friends, even if some relationships aren't as strong as before I love them nonetheless, it wouldn't have been possible without Castle Rushen.

Emily: I came to Castle Rushen at a point in my life when I was very much unaware of who exactly I was. Through resilience, I made my way through and eventually became the person I am today. It is a difficult challenge developing character, and I am able to thank everyone who I have surrounded myself with. Whether that be those who have stood by me throughout my high school career, or those who I have made friends with along the way. Almost everyone in this year has had some sort of effect on my life, and I'd like to thank you all for helping me become myself.

Harrison: From my time at Castle Rushen, I've made memories I don't think I'll forget anytime soon. School trips were always unforgettable, the same stories from the ski trip still get retold every other week 2 years later. Even the traumatic PE hillwalking weekend, looking back on it, it was still dreadful but memorable. Within school, having spent every morning with the cheerful James Mitchell, I can still say that I've enjoyed tutor time nonetheless.

Emily: There are so many moments from my school career that I consider special. Going across, whether to England or Europe, has been one of my personal favourite activities. I've been lucky enough to go to Spain, Italy, Belgium and not long ago, Liverpool. I have made countless memories on each of those trips.

Harrison: English with Mrs Kennedy will be a class I'll miss the most from GCSEs. Antoni, Ben and Thomas managed to make reading Macbeth enjoyable and for that they deserve credit. I'm just sad that it finished abruptly without us realising. Thank you Mrs Kennedy for bringing the best out of us in English and on Ben's behalf, thank you Miss McCoubrey for entertaining us in our one lesson a week. Mr Fells also deserves a thank you for the amount of hours he put into helping with Patreece's coursework, and mine. Someone who's had to teach Ben Morris in a class full of boys should be rewarded. I could talk about all my teachers but there's just too much to say, thank you for guiding me through the last 2 years.

LEAVERS' SPEECH - HARRISON & EMILY CONT...

Emily: More than anything, I'm going to miss my Spanish lessons. Our class is only small, and it has been such an enjoyable time in class with Mrs Lakeman. It's a subject I wasn't given the option to take for A level, but I know our class is going to value the skills we've learnt for years to come. I'd also like to thank Miss Wray for helping me throughout the years. I have been so lucky to have her since year 7 and I am going to miss her so much. I know the whole of my art class is ever so grateful for her, and those considering A level are going to miss having her guidance. Thank you so much for the past years, and I hope you enjoy retirement! Another lesson I shall miss is English. Whilst I'm going to be taking Literature for A level, it'll be odd not sitting at the front and having conversations with Mrs Matthews and Archie. Honestly, one of the best feelings I had is when Miss came to our protest, as she has Fridays off. It was amazing to know that she supported us not only in lessons, but outside too. The lessons themselves have been incredible, and I will miss it all dearly. Thank you all. Seriously, you have all helped me so much develop in my subject, and even though I won't have the opportunity to partake in my exams, I have really valued the guidance I've had.

Harrison: This last year looking back has been the best year of my life. I'm upset that this year has been cut short but I know my friends here will stay special to me after our time at school's finished. Whatever path you take next, choose one that motivates you and that you'll enjoy which is the most important part. Finally I hope everyone is staying well in a time which is tough on mental health and I wish to keep in touch with as many people as possible. Thank you for the best year of my life, I truly love this group.

Emily: I know we have such a brilliant year full of students who are strong, kind and courteous. As a group, we shouldn't for a moment let this virus ruin what we have built. I see on snapchat the emotions so many feel, including myself, and can understand how they can change almost instantaneously. It's awful being told you cannot see your friends, you can't go out, and you can't work. This time can be used however you want it to be; you'll never have this much again. I've been reading more, but feeling guilty about not doing enough art or Spanish. I'm lucky now to be at work with my family, and it is such a relief. I cannot wait until this is over, and we can celebrate properly. I'm also looking forward to going back to school, whenever that might be. It helps me get through this knowing that we are in this together, and that there is some certainty. I think it is also important to not dwell on things. No one has control over this and having a negative mindset can really affect your mental health. At times like these, the strain on your mental wellbeing is hard enough, and continuously surrounding yourself with negative news, emotions and events will do more harm than good. I hope you are all doing well, and know if anyone needs someone to talk to, you can contact me (as clichéd as that sounds).

We have been lucky to have one of the most down to earth and easy to talk to tutor teams. Whilst, at certain times, they have made us do things like 'life skills', we can all certainly thank them all for caring for us and looking out for our wellbeing. Huge thanks to Mrs Duggan, Mr Duggan, Mrs Lakeman, Mr Fells and Mr Caldwell. Another thank you is to Mr Winstanley for being our Headteacher and to Mr Fallon (Assistant headteacher) for supporting us all in our crucial final years at CRHS. Thank you to all our subject teachers for helping us learn and giving us resources to get the best grades possible. We think it is most important to thank Mr Deakin for being such a phenomenal Head of Year. He has managed to keep us all updated during this tough time, and is working hard to make sure we get the leaving experience we deserve. He has been such an approachable Head of Year and we have all benefitted from this from the word go. We couldn't have asked for any more!

MESSAGES FROM YOUR TUTORS

11JAC

Since Year 8 we have spent every morning together and who knew how much I would miss it... spilling the tea with the girls round the 'camp fire', staring at the top of your heads as I encourage you to talk to each other, shouting for you to get your CV and Personal Statements done... It just isn't quite the same doing this for 25 minutes at 9am every day in my kitchen with Mr Duggan. He certainly isn't as cooperative!

On a serious note, you are all going to come out of this rough time as much stronger and more resilient people. You were the generation who took on a global crisis, dealt with it, handled the unprecedented times, and came out the other side. Changed, but smiling and stronger. Never underestimate how well you have done, how much you deserve whatever grade you get and ultimately how much life is teaching you the real lessons right now.

Now, just make sure you add all of the extra hobbies and activities you have done to your CVs and Personal Statements.....

Love to you all, **Mrs Duggan**

11CF

What a great 4 years it has been and a privilege to be the tutor of this group of students. Every one of them have developed into a fabulous young adult. You should hold your heads up high and be proud of what you have all achieved during your time at CRHS. It's not always just about the grades you achieve at the end of KS4 and I'm sure you will all do absolutely fine. It is also about the personal traits you have built and the character you have now

become. I am proud of you all. I wish you all the best for the future. Remember they are no dead ends, just forks in the road and many paths to get to where you want to go. Stay safe and keep smiling. Miss you all. **Mr Fells**

MESSAGES FROM YOUR TUTORS

11CRC

I can't believe you've managed to pull a fast one! Unbelievable! What a bizarre way to end the year! Some of you, if not all of you, will have found this whole experience quite difficult. Like you, I am gutted that I didn't see you all perform to your best, to say those goodbyes and to deface your school shirts with appropriate goodbyes! But just think of this, you will look back on this experience, and for decades to come, be able to say 'that was me, that was my year'. The only advice I would give you now, is to be happy. Don't dwell on the negatives and what ifs. Think about the time you have, as an opportunity, a time to reflect, a time to set some new goals. Before you know it, all will have returned to normal! All the best 11 CRC, **Mr. Caldwell**

11SPL

I hope you're all keeping safe. I can't believe how fast the time is going and that it's over 6 weeks since our tearful goodbye. I miss you all and think about you every day when I look up at the picture you gave me, which is on the shelf opposite where I am sitting now. The card you gave me has pride of place on the windowsill but the chocolates are long gone! You will be pleased to know that I have extracted all your photos from SIMS and am going to get them framed and they will have pride of place in F3. Who knew that when I became your tutor in year 8 that you would turn into my best ever tutor group? We are living in turbulent times and I am so sorry that the end of your year 11 came so swiftly and cruelly. However, looking ahead, we will soon be able to move forwards into the next "new normal" phase of our life and I look forward to seeing many of you back in year 12 and hearing of your plans for next year. For those of you who have chosen other paths, I will always be found in my second home – F3 – whenever you want to pop in or, of course, you can contact me on Google. And guess what? I'm not retiring yet! Keep in touch. You are a special lot and I am proud to have been your tutor. **Mrs Lakeman**

MESSAGES FROM YOUR TUTORS

11TOD

Although we have only spent the last two years together each morning, annoying and amusing each other in equal measure, I have supremely enjoyed your company and think it's a big shame we had to end on such an abrupt note. You did all finally get to see the tutor power rankings which I am sure you are all very pleased with (Ffynlo). While it is a shame how the end of your final year of compulsory school has gone you shouldn't get yourselves down about it. Little can be done about that now. What you should be doing is reminding yourselves of all the good times you shared and looking forward to the future, whatever that may bring. Your individual successes are too numerous to name but I am proud of you all as a group and how much you have grown even over the past two years. At least when you get older you can point back to this time and say with a sort of strange pride that you were caught up in the middle of all this chaos, boring anyone in the pub who will listen about how you fought through your own little war. Ladies and Gentlemen, no need to assemble. I'll see you all very soon hopefully and I wish you nothing but the best for your futures!

You're still a bunch of fools. **Mr Duggan**

MESSAGES FROM YOUR TEACHERS

Key Skills

I have really enjoyed helping you all understand the skills and qualities you all have and helping you to understand that you are all individuals. When we started with the Careers and Experiencing work course, many of you did not have a clue what you wanted to do when you left school. Through the year you all worked hard and the skills learnt then helped you choose your work experience.

We then moved on to the Living Independently, where you have learnt about bills, budgeting and banking. You have been a great year group and we have had many laughs, conversations and discussion....sometimes about everything apart from the topic we were on. I soon realised, very early on in year 10, that bribery works wonders!!! Work and completion of work (to the correct standard) means some time on Minecraft!!!! It was amazing how much work we got through....

I have watched you all grow into amazing young adults, showing care and compassion. I wish you all the very best in the future, whatever the next step is for you. Remember those skills and qualities. You will all do well and be true to yourselves. **Mrs Lamb**

Thank you all for your hard work this year, and for really putting in that extra effort, particularly in those last few weeks. Both me and Ms Marshall are very proud of what you've accomplished so far and I hope you can be proud of that too.

And another thank you for always having a sense of humour. This class has had me in laughter most of the year and I appreciate that they'll have kept their good humour even now! Keep your heads up and I'll see you all at prom!

Miss Quirk

GCSE Drama – what can we say? Such a varied, engaging and energetic group. We never failed to smile and laugh when working with you, even when you were practising your Tik-Tok dances rather than rehearsing!

Our trip to Liverpool was such a treat: spotting endless crowds of cartoon characters on the docks; eating Dominos at 2am; clambering onto the merry-go-round; suffering from massive headaches after watching Six; Mr Deakin giving us an interesting tour through Liverpool City Centre on a Saturday night;

Leo drinking copious amounts of Monster... You were all absolute gems!

All of your work right to the very end was superb. You all showed yourself to be committed, confident and resilient young people. We will always be sad that we didn't get our Unit 2 performance day as it is a real event, but trust us: you were all superstars and didn't need a specific day to show how great you all are. We wish you all every success in your chosen pathway. Please keep in touch as we thoroughly enjoy hearing about your varied achievements.

A note from our pal, Brecht:

*"Pleasures
First look from morning's window
The rediscovered book
Fascinated faces
Snow, the change of the seasons
The newspaper
The dog
Dialectics
Showering, swimming
Old music*

*Comfortable shoes
Comprehension
New music
Writing, planting
Traveling
Singing
Being friendly"
— Bertolt Brecht*

Take delight in the small things, be happy and 'Bravo!' **Mrs Duggan and Mrs Moss**

MESSAGES FROM YOUR TEACHERS

I know that the last few weeks have been hard and that many of you are very disappointed that your time in Year 11 has been cut short. I just wanted to write a brief message to say thank you for the effort and commitment that you have put into your IGCSE studies in Physics and to encourage you to take advantage of all the opportunities that are ahead of you. As a year group you have developed an enormous range of skills and abilities and these will open up many different pathways for you to continue your learning. I wish you all the best for the future and look forward to seeing many of you back with us in the Sixth Form next year.

Mr Swinhoe

I have to say that I miss you all greatly. The sudden end to teaching you has not really sunk in as yet. Normally I get a chance to say goodbye and to maybe offer some words of advice on a one to one basis. Obviously it is not possible to do that in this message. I would however like to say the following:

You all have the potential to do great things in the future. Take opportunities and do not doubt yourself when doing so. You will make mistakes, we all do. Learn from them. You never know who will help you in life so always treat people how you would want to be treated yourself. I hope that many of you will return to the 6th form and that I will have the pleasure of working with you in the future. Maybe you will be in my year 12 tutor group?

If you are not returning to school, I would like to wish you all the very best in whatever you go on to do. With the very best wishes to you all.

Mr Gray

Hi Year 11! I just wanted to say a massive thank you for being an amazing year- you were the first year I took through from the beginning of the GCSE in Year 10 and although it didn't quite work out how we planned you have all been great and made my first year here a memorable one! I hope to see some of your faces back in September for sixth form, and those who I don't see I wish you all the best for the future- keep smiling and remember WE ARE CR! **Miss Brown**

To the brilliant Year 11 geographers,

Thank you to you all for your commitment, progress and hardwork.

I wish you the very best of luck in all that you do. Don't forget to challenge yourself, learn new things and remember to take every opportunity that comes your way.

With best wishes,

Miss Metcalfe

MESSAGES FROM YOUR TEACHERS

Year 11, thank you for all of your hard work and your positivity over the last two years. I look forward to hearing about your successes in the future and I'll see some of you in September. Take care!

Miss Crispe

What a strange way we have seem to have ended the course. Firstly I would like to thank each and every one of you for your hard work and effort during the last 2yrs. Despite continued disruption over the course of your coursework you have all shown dedication and understanding and given your time freely to get work completed. You have been a great group of lads and I wish you all the best for the future.

Mr Fells

A special mention to the ICT H1 crew. It has been a pleasure teaching you all, from Ffynlo's love of being on the dark side of the room and daily requests to move, Kyle's regular input to our lessons "er...I don't know", Joe's "My computers' broke again!" and the amazing length of Paris's nails meant she couldn't type! You all took the anticipation of 7 hours of exams in your stride, worked with purpose (most of the time), ate plenty of sweets Scott and Callum! The future depends on what you do now. Each day you are creating your future life, so use your time in a wise manner. I hope that when you are using a spreadsheet, or a database, you think back to our lessons, and say "Ah that's what she meant!" "The past is your lesson. The present is your gift. The future is your motivation." Good Luck.

Mrs Mason

Ms Poole would like to say a big thank you to her year 11 class for being a wonderful class to teach even when she had to nag you to work harder to achieve your potential. I hope you get the grades you deserve and that I see many of you back in sixth form next year or that you enjoy your future studies and career elsewhere. I know it was an unusual end to our history lessons but you have been part of history here. I very much enjoyed taking you on our history trips to France and Germany and I hope we can all explore and travel the world again soon.

We're not going to lie. It's been a great 2 years. Myself and Mrs. Astin have loved every minute of it! You have all given us some great memories that we will fondly look back on for years to come! There are just so many..... the first 'Family speech', Aiden and Will getting ruined on a weekly basis, Helena's 'moo', the time you fell in love with your study buddy!! We could go on and on! To finish, we would like to say thank you for all your hard work, both in the classroom and on the field of play. You've worked your absolute socks off for us since day one, and we have no doubt you would have all smashed the exam had you sat it. Hopefully the course has been everything you thought it would be. Myself and Mrs. Astin hope to see many more classes like yours in the years to come....we doubt we will however. One of a kind. Thanks for everything.

Mrs Astin and Mr. Caldwell. PS. I know you'll miss the EverLearner #wercr

MESSAGES FROM YOUR TEACHERS

I loved every lesson! I have had the pleasure of watching you grow over the last two years and you rose to every challenge, from tackling the tiresome Tim Lott, to creating your own narrative twists and descriptive masterpieces. You analysed every syllable of Duffy's offerings, you enjoyed (or was that endured?) every long 'short' story Cambridge could throw at you and even 'bloody' Macbeth didn't faze you! I am so proud of you all. You were so good humoured and keen to do well that I could not have asked for more. I'm on a tight word count here (how many for a summary question?) and you know how English teachers love to talk, so I've emailed you a letter to read as well. That's your last homework. This part of your journey ended very unexpectedly, which was frustrating for us all, but you have very exciting futures ahead of you. It was a joy to spend so much time with you.

Mrs Kennedy

I would like to wish everyone in my class goodbye and good luck. It's been a pleasure teaching you all! And to quote Doc Brown, 'Your future is whatever you make it, so make it a good one!'

Mrs Elder

I can't believe where the past 3 years have gone. I was so impressed with the hard work, dedication and positive attitude you all showed. I know we had some disagreements along the way (more so with each other rather than me) but hopefully you will look back on all you achieved as you did as it made you stronger. I will look back on our time together and smile because I'll probably think of some funny story or non-funny joke from Leo! I know you are disappointed about your exams because you wanted to prove yourselves and your abilities. All I can tell you is that you did prove yourselves and I am extremely proud of each and every one of you. Whatever you go on to do next year I wish you the very best of luck.

All the best
Mr Brookes

Hello Mrs Williams/Ms Poole's Year 11 History group. I'm sorry we had to part in such a strange manner. No doubt you have all spent your time watching lots of historical documentaries and films. I hope that you all retain your inner history geek over the weeks to come - I know you've all got that that inner geek tucked away somewhere. I hope to see some of you true geeks in September for A Level fun and frolics.

Take care and remember you are lucky to have got away with not having to sit Paper 1!

Mrs W

I'd like to say thank you to my Year 11 Geography group who always made me smile on Friday afternoons and Monday mornings. Well done for all of your hard work and all of the effort you have put in over the last two years. From making volcanoes to standing in rivers, you have all become fantastic Geographers, and I wish you all the very best for the future.

Miss Goddard
