

Physical Education participation protocol

All students must attend all lessons with full PE kit irrespective of the capacity in which they can take part. Those unable to fully participate must provide a written, dated and signed note from home, explaining the reasons why not, and asking for permission to be excused. They are expected to take part in learning activities even if not directly participating in the planned physical activity, e.g. keeping scores, recording data, peer coaching feedback, video analysis with the ipad.

Pupils with a written request to remain indoors will be accommodated where staffing and facilities allow however in such circumstances where this is not possible, students must report immediately with their note to the Student Welfare Officer. In her absence they must report back to Reception where alternative supervision arrangements will be made via the on call member of the Leadership Team.

Students who fail to arrive to lessons appropriately prepared for physical activity of any nature will be provided with kit from lost property, if available, or alternatively participate in relaxed school uniform. In addition, they will be required to undertake a departmental detention arranged at the convenience of staff.
